

KWARTAAL 1: Werkkaart 9

PATRONE, FUNKSIES EN ALGEBRA

Getalsinne: Omgekeerde bewerkings

Wat moet jy doen?

- Vul die ontbrekende getalle in die blokke

$6 + 4 = \square$

$4 + \square = 10$

$10 - 4 = \square$

$5 + 5 = \square$

$\square + 5 = 10$

$10 - 5 = \square$

$7 + 3 = \square$

$3 + \square = 10$

$10 - 7 = \square$

$15 + 5 = \square$

$15 + \square = 20$

$20 - 15 = \square$

$17 + 3 = \square$

$17 + \square = 20$

$20 - 3 = \square$

$22 + 8 = \square$

$8 + \square = 30$

$30 - 22 = \square$

$54 + 6 = \square$

$54 + \square = 60$

$60 - 6 = \square$

$88 + 2 = \square$

$2 + \square = 90$

$90 - 88 = \square$

- Vul die ontbrekende getalsin

$18 + 2 = 20; \quad 2 + 18 = 20; \quad 20 - 18 = 2; \quad \underline{\hspace{2cm}}$
